

# **STOP PRESS – Hot Weather**

(19.06.17)

**Please note the following info that was on last week's Newsletter.**

Now that the weather is beginning to get warmer it is vital that your child has applied long lasting sun cream before coming to school, is wearing a hat or cap and has a bottle each day filled with fresh water.

If it is very warm and sunny and your child has not got a hat or cap then we may have to limit their time outside at break and lunch time.
